

Laser Vision Correction Training Series:

SMILE® Accreditation Course 2024

21 & 22 September 2024

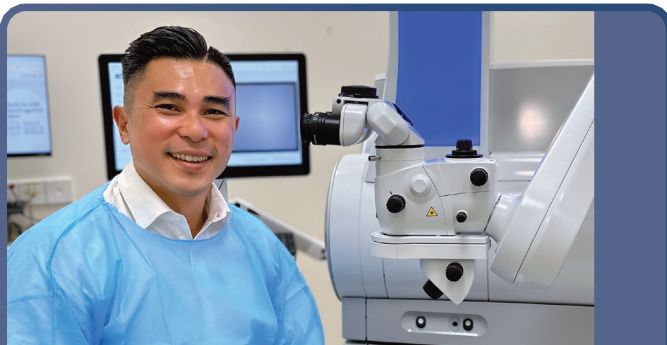

Course Summary

The SMILE® Accreditation Course 2024 is designed to provide ophthalmologists with thorough training in SMILE surgery, combining online modules, lectures, interactive sessions, and practical experiences.

It starts with an online pre-learning module on LASIK fundamentals, setting a foundation for the more advanced on-site training.

The first day of the on-site program delves into SMILE surgery, covering patient selection, surgical techniques, managing complications, and expected outcomes.

The second day offers hands-on wet lab experience with live surgery observations and exercises using Zeiss technology, preparing participants to excel in SMILE surgery and enhance their refractive surgery practices.

Course Director

Assoc Prof Marcus ANG

Course Coordinators

Dr TAN Peng Yi

Dr TEO Zhen Ling

Course Objectives

- Understand the principles and techniques of Refractive Surgery
- Assess patient suitability for SMILE refractive surgery and conduct comprehensive pre-operative evaluations
- Perform refractive lenticule extraction procedures i.e. SMILE proficiently, using appropriate surgical techniques and instruments
- Conduct precise surgical planning, accurate tissue ablation, and optimal centration for achieving predictable outcomes
- Recognise and manage associated intraoperative and postoperative complications
- Enhance visual outcomes and manage residual refractive errors through enhancement procedures
- Update with the recent advancements and emerging trends in refractive surgery, including new surgical techniques, technologies, and research findings
